

## solids Vacuum Scale

### Type SVN

**Vacuum scale for large product batches to implementation in combination with:**

- **Product delivery using silo trucks, in big-bags and sacks**
- **Storage of large components in silos**
- **Completely dust-free emptying of big-bags and sacks**

### Technical data (example):

- **Delivery rate 9 t/h**
- **Conveying route 30 m vertical / 38 m horizontal**
- **Poorly flowing product**
- **Vessel size 2.5 m<sup>3</sup>**
- **Metering accuracy:  $\pm 1.0$  kg**
- **Metering accuracy with fine dosing  $\pm 100$  gr**

# solids Vacuum Scale

## Type SVN

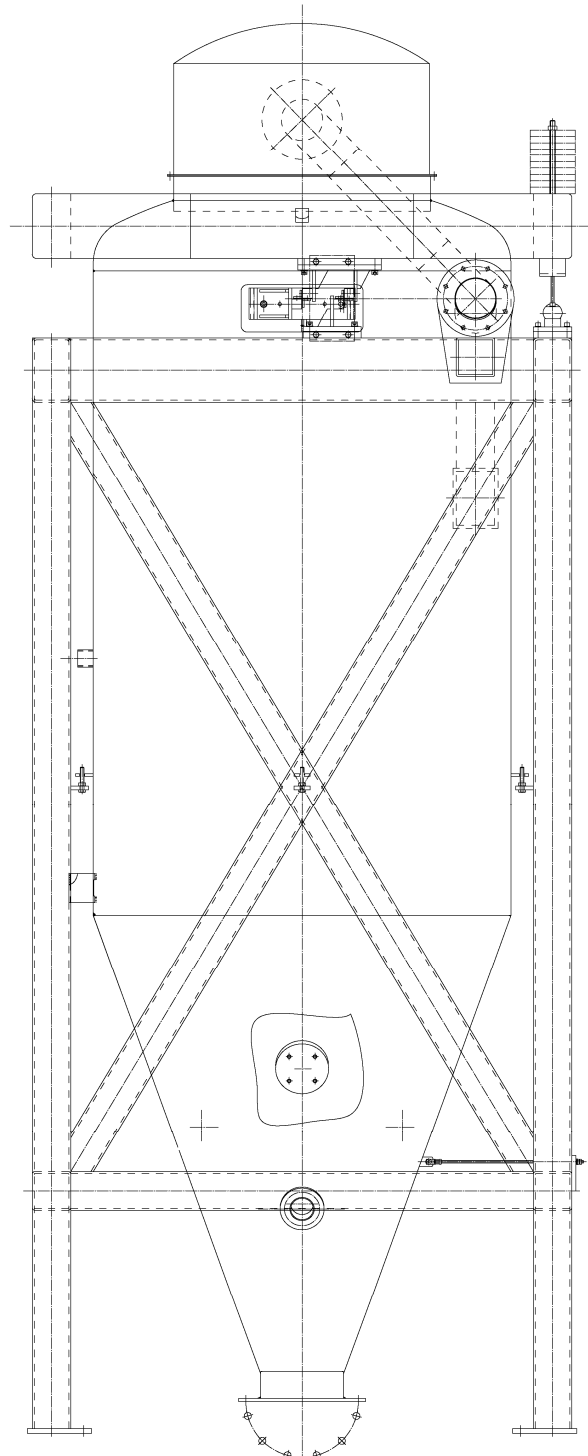

### Your Advantages:

- Exact gravimetric metering as per the recipe
- Residue-free discharge from vacuum hybrid scales
- Fail-safe due to proven system
- Efficient operation
- Fully automatic sequence
- Space-saving assembly
- Absolutely dust-free unloading, metering and conveying
- More accuracy due to the hybrid scale
- Process accuracy achieved using precise interplay between the system components

### Your Benefits:

- Less cost due to reduced handling effort
- Improved quality due to more metering accuracy
- More output due to large production volumes
- More cleanliness in the svs-

**Suction scale with tare compensation**
